

### Sample Personal Statement

مقدمة: تحدث فيها سبب اختيار التخصص ورغبتك في الدراسة. يمكن في هذا الجزئ التحدث او شرح سبب المعدل المنخفض أو الانقطاع في الدراسة أو اي شيء ترغب تلفت انباه الجامعة اليه

I have always been found by Mathematics and liked the subject. This might have been due to an excellent teacher that taught me in high school. Since then I found it interesting to develop mathematical models and find solutions for them.

After joining university I found that Operations Research had the same concepts that I liked in Mathematics and mathematical modeling attracted me to specialize in the area.

سبب ختيار الجامعة: اشرح فيها اسبابك في اختيار التخصص والجامعة

I would like to continue my education in the area I love at your university. I was interested to know that you a special course that deals with mathematical modeling which attracted me more to your course. I was also happy to read that Dr Phil March teaches at the department, he is one of the icons in the field and I would be pleased to read with him.

Your university and department are highly ranked in the field and one of the recommended departments by the Saudi Ministry of Higher Education.

اشرح في الجزئ الاخير عن طموحك بعد الحصول على الشهادة

I hope to become one of the leading Mathematicians in the field and aim to contribute in the publishing and scientific research areas. I also aim to complete my PhD study at your institution after successfully completing my masters cours
