Front cover image: Graphical representation of the University's coat of arms. This symbolises the historical associations of the University with the locality. The triangular gold castle with three towers comes from Exeter's coat of arms and is thought to represent Rougemont Castle as alluded to by the red background. The 15 gold bezants around the edge of the shield are from Cornwall's coat of arms, whilst the green cross on a white background is from Devon County Council's coat of arms. The theme of learning is symbolised by the book with gold edges and a Latin inscription translating roughly as "We follow the light".

The Exchange, Penryn Campus

Why University of Exeter?

Chartered as the University of Exeter in 1955

I decided on Exeter because it is a Russell Group institution, making it the equivalent of a US Ivy League school. Exeter is an incredibly beautiful and historic city. Despite my concerns about the educational and cultural differences, I was able to pick things up within a week. I'm having an excellent time and strongly encourage all Americans to give England a go. Rachel, studying MSc Management

Beaches: great for watersports

Over 27,000 students from over 150 countries

Top 150 in the prestigious QS World University Rankings 2022

Beautiful green campus locations in Exeter and Cornwall

Regularly Top 5 in British Universities and Colleges Sport since 2011

RUSSELL GROUP

A Russell Group university

Rated 5 stars by QS

Dedicated support for Research and PhD students through our Doctoral College

Postgraduate scholarships available. See page 26

40 subject areas

Committed to enabling social mobility through education, to help our students realise their potential through higher education

¹ based on research income between 2007/08–2016/17.

Our history

- We've been dedicated to discovery and changing lives through education since **1851** when the Exeter Schools of Art and Science were founded.
- In **1922** we became the University College of the South West.
- In **1955** we became the University of Exeter.
- In **1978** St Luke's College of Education (est. 1840) joined us.
- In **1993** Camborne School of Mines in Cornwall (est. 1888) merged with us.
- In **2004** we opened the Penryn Campus, expanding the provision of higher education in Cornwall.
- **Today** we're a member of the Russell Group, recognised for both our research and teaching excellence.

We're still **dedicated to discovery.**
We're still **changing lives through education.**
We can **change yours.**

Streatham Campus, early 1970s

Excellence in education

Postgraduate education should be exciting and transformative. We'll challenge you to explore new ideas, ask questions and solve problems. You'll discover how to direct your own learning and take an active part in creating knowledge, ensuring you learn how to think and not what to think.

Innovative teaching

We are committed to building an inclusive environment where diversity is valued, and making sure that you feel welcome and able to succeed is our top priority. Our teaching is enriched by our inspiring lecturers and our partnerships with business, industry and professionals. Our academics are active researchers, and many are world leaders in their field. They bring teaching to life by exposing you to new perspectives and sharing the latest discoveries as they happen.

An international education

Interacting with people from different cultures and backgrounds is a crucial part of university education. Our global learning community will broaden your experiences, challenge your perspectives and enable you to form extensive networks across continents. You will learn to work collaboratively, push boundaries and value diversity – all skills which are valued in the workplace where multicultural environments and global connections are the norm.

Find out more: [exeter.ac.uk/postgraduate](https://www.exeter.ac.uk/postgraduate) 

Our success is built on a strong partnership with our students and a clear focus on high performance at our beautiful campuses in Devon and Cornwall.

A safe learning environment

Your education is important to us, and we won't let COVID-19 get in the way of you getting the best educational experience. Flexibility is key and wherever we can and it is safe, we will offer face-to-face teaching on our campuses. Our aim is to ensure you continue to receive the exceptional education that you expect. This will incorporate different ways of learning, and will allow you to switch easily between structured, on-campus and online learning as needed. You will continue to have access to your tutors, as well as our COVID-19 secure campus, your circle of friends and the support you need from the University community.

Expand your horizons

Some of our Masters programmes include a 'with Industrial Placement' option. Normally studied over two years, you'll have the opportunity to combine your Masters with valuable professional experience, putting your learning into practice while studying, by completing a 9-12 month work placement relevant to your degree. See online for details: exeter.ac.uk/postgraduate/courses

January starts

As part of our response to the pandemic we have listened to our students and developed a number of programmes which start in January as well as September, giving you more choice and flexibility over when to begin your Masters. You can see which programmes offer a January start in the course list at the back of this prospectus.

The Business School, Streatham Campus

World-leading research

As a Russell Group University our research makes a difference across the world. We believe in breaking down traditional barriers between academic disciplines so the bigger problems of the 21st Century can be considered from human as well as physical perspectives. We are constantly seeking new ways to engage with partners to build productive relationships that tackle some of the fundamental issues facing humankind.

Home to the UK's 5 most influential climate scientists

Ranked 9th in Europe for scientific performance by CWTS Leiden¹

A Russell Group research-intensive university

Our research is at the heart of what we do, and our academics work at the highest level and are renowned in their fields. Our climate change and sustainability research is amongst the most cited and influential in the world, but we also have expertise in fields as diverse as:

- anti-microbial resistance
- diabetes and dementia
- identities and beliefs
- the future of work

Our Doctoral College stimulates, supports and sustains a vibrant research and intellectual environment across and between disciplines for postgraduate and early career researchers. Focusing on investment and development in training, resources and facilities, the Doctoral College provides an outstanding quality experience for those in the early stages of their research careers.

Recent research

- shaping the global response to anti-microbial resistance in the water
- using drone surveys and computer modelling to plot extreme arctic erosion
- developing an app that uses AI to detect, prevent and treat mental health
- creating the biggest divorce law reform for 50 years: 'no fault' divorce
- developing a 7-point plan to battle the climate emergency via economic reform
- identifying Positive Tipping Points to solve the climate crisis, helping to regenerate ecosystems and sustain the electric vehicle revolution
- use of virtual reality headsets in living well with dementia

Find out more about our exciting research: exeter.ac.uk/research 

¹ Leiden Ranking 2020, based on percentage of outputs in top 10 most cited

 I'm a bit like an environmental detective, investigating relationships between humans and the environment, or looking for evidence of environmental change.

I am pioneering new techniques to find environmental 'tracers' in a range of different samples, and I've been involved in lots of exciting projects. These include classifying biomarkers in ice cores from Antarctica, identifying microparticles and plastics in fatbergs, reconstructing air pollution histories in Chinese megacities and characterising the growth of microorganisms for biofuels research.

I fell in love with research whilst completing my undergraduate dissertation project – a key moment that has shaped my career as a Postdoctoral Research Fellow. An important part of my research has been to assess how air pollution has changed since the Industrial Revolution in Merseyside using records from urban ponds. I have seen first-hand the impact humans have on air quality, and how there has been a sharp rise in pollution from fossil fuels over the last few decades.

My research has made me passionate about reducing my own personal environmental impact and I now live in a tiny off-grid house with my family. A firm supporter of the current social movement for climate action, I'm proud to work here. The University has declared a climate emergency and is committed to protecting the environment for all our futures. 

Dr Ann Power

Postdoctoral Research Fellow
The BioEconomy Centre, Biosciences

Reed Hall Gardens, Streatham Campus

A location like no other

We have beautiful green campuses in the South West of England, which combine historic buildings with modern facilities. But there's plenty more to explore; immediate access to the countryside means you can explore beaches, moors, rivers and pretty Devon and Cornish villages. In Exeter and Falmouth themselves, there's great shopping, festivals, bars and nightlife.

Beautiful green campuses

Beaches: great for watersports

Exmouth seafront, Devon

Our campuses

The University of Exeter has three campuses across the South West. Our unique location offers beautiful beaches and countryside on the doorstep.

Streatham and St Luke's campuses are in the historic city of Exeter, with plenty of shopping, nightlife and a rich cultural scene. It is well-connected to the rest of the UK by train, plane or bus and our students love how safe the city feels.

Penryn Campus is located near to the seaside town of Falmouth in Cornwall, with a close-knit student community and a laid-back vibe. Its stunning beaches offer opportunities for sports and outdoor activities. The Knowledge Spa in nearby Truro hosts our European Centre for Environment and Human Health.

I am convinced that my choice to come to Exeter was a wise one.

The Streatham Campus is incredibly beautiful, convenient, with comfortable accommodation, state-of-the-art study facilities, professional and friendly staff and a reputation for excellence in research. Exeter is exactly the right place for me to do my Masters and I really enjoy my study and life here.

Pisi, studying MSc Sport and Health Sciences (China)

 Penryn Campus

Truro is 15 mins on train from Penryn

A stylized map of the United Kingdom with a yellow line connecting major cities: Manchester, Birmingham, Cardiff, Bristol, and London. Each city is marked with a blue dot and an airplane icon. Exeter is highlighted with a red location pin and a white box containing the word "EXETER".

Exeter is 2.5hrs from London by train

Penryn is 2hrs from Exeter by train

EXETER

St Luke's Campus

Streatham Campus

The map shows Exeter's location in the southwest of England. Below the map are two photographs: one of St Luke's Campus, a large stone building with a green lawn and autumn leaves, and another of the Streatham Campus, a modern building with a curved concrete structure and people sitting on steps.

Building your career

As you begin your career it's vital that you have the range of skills employers now demand, beyond subject knowledge alone. That's where our dedicated careers team can help.

With links to employers around the world, the careers team blends individual advice and guidance with organised programmes and skills sessions, to empower you to achieve the career you want. Your time in postgraduate study will go quickly, so make sure you take advantage of the support the career team offers from the outset.

Graduate Immigration Route

The UK Government has announced that it will introduce the Graduate Immigration Route from the summer of 2021. From this time, students holding a valid Tier 4 visa, who have completed a degree at undergraduate level or above at a UK Higher Education Provider, will be able to remain in the UK and work, or look for work, for two years after they complete their studies. See online for details: exeter.ac.uk/students/international/applyingforavisa/studentvisas

Employing you around the world

Our dedicated team build relationships with global graduate employers to support your career aspirations. We have a Global Employer Engagement Officer within our Global Opportunities Team. We offer China and India Ready Careers Programmes, to help students from those countries apply for jobs in the UK and back home, as well as ongoing support for students to find part time jobs on campus, for example. We also have a network of over 300 employers including HSBC, Deloitte, PwC, IBM, EY, Toshiba, Mars, Bosch and Siemens. All these companies regularly recruit our students for graduate schemes, one-year sandwich-style placements, plus summer and short placements. exeter.ac.uk/careers/global

CAREER ZONE

Career Zone – careers advice and resources to enhance your interview and application skills.

My Career Zone – online hub for all your career planning needs, including access to vacancies.

Exeter Award and Exeter Leaders Award – extra-curricular achievement awards to enhance your employability.

Careers fairs

Skills training workshops and seminars

Enterprise and entrepreneurship sessions

Internships for postgraduates

The careers team at Exeter is fantastic and has so much knowledge. They helped me as a student and I'm still getting support now as a graduate. Exeter is really good at getting experts in to talk to students. It's all designed to make you a graduate with the core skills employers look for.

Emma, Barrister (International Law LLM graduate)

Career Zone, Streatham Campus

Supporting you

INTO UNIVERSITY OF EXETER

English language support from INTO University of Exeter

If you need to improve your English to meet our entry requirements, you can enrol on an English language preparation course delivered by INTO University of Exeter on the Streatham Campus. Taught by experienced tutors, who understand the international student experience, our Pre-Sessional courses provide intensive preparation in academic English for students over a six- or ten-week period starting in June or July.

INTO also offers Academic English and has regular intakes throughout the year, so it's suitable for students wanting to enrol at other points in the year or who need longer to enhance their skills.

The Graduate Diploma programme in Management or Finance is designed to enhance your subject knowledge, study skills and English ability, and successful completion (subject to achieving the specific grades of entry) leads to direct entry onto one of a selection of Masters programmes at the University of Exeter. It's a great option for students who have completed a non-Business-related undergraduate degree, as it allows them to transfer to Business for postgraduate study.

For further information see intostudy.com/exeter

Meet and Greet Scheme for International students

We welcome our new international students starting in September through a Meet and Greet scheme, and support your transition into UK university life with a programme of events during Welcome Week – the week before teaching begins. This provides all the practical information you will need to study here, and gives you the opportunity to make new friends too.

See online for full details of the support we offer international students:

exeter.ac.uk/international

Support and wellbeing once you are here

Our support and wellbeing services include:

- International student advisers, to help with any questions or issues you may have
- Insessional English language support, offered free of charge at our Streatham Campus through intohigher.com/exeter and at Penryn Campus by ASK: Academic Skills at languages.fxplus.ac.uk
- Our Global Chums mentors will help you settle in, introduce you to societies, clubs and sports and be on hand to answer your questions
- Our International Student Advisors provide advice on immigration and types of visas for studying in the UK. We'll answer your questions throughout the application process and when you arrive
- Our careers services can help you find part-time work to help fund your studies; and a full-time job on completion
- Our welfare teams will be there for you to discuss any health and wellbeing issues that may be affecting your ability to study

Please see online for full details, including information about skills support, our Advice Unit, religious provision and support for students with disabilities.

- exeter.ac.uk/wellbeing

Excellent careers support, Streatham Campus

Student life

A postgraduate degree should challenge you – it requires commitment, passion and determination – but even at Masters level, student life should be all about balance. Whether you're interested in societies, sports, arts and culture or nightlife there's a host of opportunities at the University of Exeter to advance yourself, meet new people, and create memories. Your postgraduate experience can be anything you want it to be.

Our community

At the University of Exeter you will benefit from a truly global experience. Our vibrant and multicultural student community provides a supportive environment where you can try new things, develop your professional and personal skills, build your confidence and meet new people from all around the world and every conceivable background exposing you to different ideas, perspectives and ways of living.

Whether you're based at our Penryn Campus in Cornwall, or our St Luke's or Streatham campuses in Exeter, you'll be welcomed into our engaged, inclusive and safe communities of people, who unite around shared interests and values. Our campuses are bustling places with students coming together to play sports or music; run fundraisers; attend film screenings, gigs and events; network with employers; collaborate in the library or simply catch up over coffee in one of our many cafes.

Our societies

Both the Student's Guild in Exeter and the Falmouth and Exeter Students' Union in Penryn, support and bring together our student communities. With over 350 societies across our campuses there is something for everyone, and it's a great way to make friends, have fun and explore the local area.

Arts and culture

There is a thriving cultural scene in Exeter and Penryn, with events taking place on and off campus throughout the year, from food and drink festivals to live music performances and folk festivals. You could join a performing arts club, watch a movie at our on-campus cinemas (Streatham and Penryn), view an art exhibition on campus or explore the nearby galleries and museums.

Outside The Exchange, Penryn Campus

Student life

Sport

Whether you're an elite athlete or a complete novice, the University of Exeter offers a huge variety of sports clubs and societies. Perfect your skills, learn something new or just have some fun!

- Over 100 sports clubs across our campuses
- National success – We're the #1 sports university in the south of England and Wales, and we consistently finish top 10 in the British Universities and Colleges Sport (BUCS) rankings each year
- New and improved facilities – recent investment into our sports centres, with gyms, all-weather pitches, fitness classes, swimming pools
- Play in local league and national competitions
- Sports scholarships are available, providing support and financial benefits to help meet the needs of individual athletes

Healthy body,
healthy mind

Exercise is important for both our physical health and mental wellbeing, and our sports societies and fitness classes will offer something for everyone, from yoga and meditation societies to ultimate frisbee and breakdancing.

Facilities

We have excellent facilities and laboratories for science, technology, engineering, mathematics and medicine as well as humanities and social sciences across all our campuses:

- Environment and Sustainability Institute (Penryn Campus)
- Living Systems Institute (Streatham Campus)
- Research, Innovation, Learning and Development Centre (RILD), Royal Devon and Exeter Hospital (Exeter City Centre)
- The Knowledge Spa at the Royal Cornwall Hospital (Truro, Cornwall)
- The Bill Douglas Cinema Museum (Streatham Campus)
- Digital Humanities Lab (Streatham Campus)
- Medical Sciences Laboratory (St Luke's Campus)
- Microscopy Suite (Streatham Campus)
- Medical Imaging Suite (St Luke's Campus)
- Masters Suite (Penryn Campus)
- Daphne du Maurier archive (Penryn Campus)
- 24/7 library facilities (Streatham, St Luke's and Penryn campuses)

Student life

Accommodation in Exeter

Studying in a new place is a big decision and it's important to have somewhere to call home, whether that's private accommodation or university halls.

University accommodation in Exeter

Our student residences each have their own character and offer you safe and secure environments to live and study in. We know that postgraduate students have different needs to undergraduates. With this in mind, our accommodation offers the following benefits:

- Guaranteed accommodation for first-year international students who apply by our deadline¹
- Dedicated postgraduate accommodation
- A range of convenient locations
- A variety of contract lengths
- No guarantor required – arranging accommodation with us is easy
- All-inclusive rents – no extra bills to pay
- 100Mbps internet access with wired and wifi connectivity included

Find out more on our website exeter.ac.uk/accommodation/students/postgraduatestudents

Private accommodation in Exeter

The city and surrounding area has a good stock of private accommodation with contract lengths and rent levels to suit different budgets. Both campuses are close to the city centre, so you're never too far away.

For further information on private accommodation in Exeter, please visit exeter.ac.uk/accommodation/privatehousing/studenthousing

To look for private accommodation please visit exeter.ac.uk/accommodation/privatehousing/studentpad

¹ Applies to unaccompanied students only. Please apply by 31 July 2022.

Accommodation in Cornwall

With options both on and off the Penryn Campus, there's a range of accommodation in Cornwall to suit all tastes.

University accommodation in Cornwall

Our university-owned, managed and approved halls include either campus-based en-suite accommodation, or offsite choices just a 10-minute walk away. We aim to allocate you to a flat with other postgraduate and mature undergraduate students and offer:

- Guaranteed university accommodation for international postgraduate students who apply by our deadline²
- High-quality, en-suite accommodation at The Sidings and Glasney Student Village, situated near or on the Penryn Campus
- Residences divided into self-catered flats with up to seven study-bedrooms. A number of rooms are wheelchair-accessible and can be adapted for students with disabilities

- Rooms furnished to a high standard with a bed, wardrobe, desk and chair
- All-inclusive fees covering all utilities, wifi and contents insurance

A catered package is available for students staying in Glasney Student Village.

Find out more on our website:
fxplus.ac.uk/accommodation

Private accommodation in Cornwall

A range of high standard private housing is available for rent in Penryn and Falmouth.

For further information and help on private sector accommodation in the area, please visit fxplus.ac.uk/accommodation/private-sector-accommodation

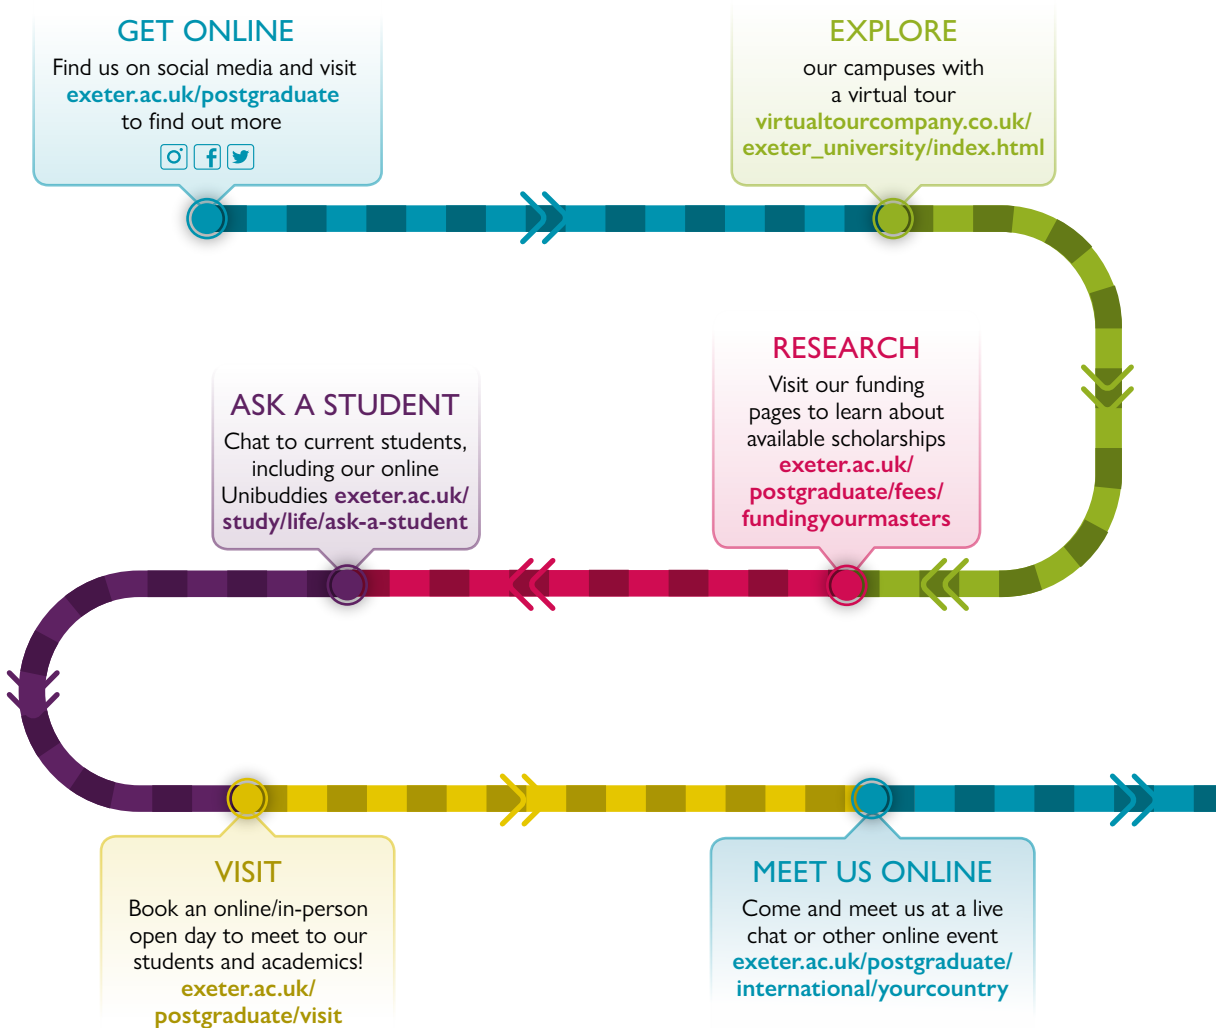

² Please apply by 31 July 2022.

Applying to study with us

Your Masters applicant journey

Start your journey to becoming a University of Exeter student by following these simple steps!

WELCOME TO THE UNIVERSITY OF EXETER

DECISION TIME

If we make you an offer you'll need to let us know your decision. How to do this will be included in your official offer

APPLY

You can submit your application from September on our website [exeter.ac.uk/postgraduate/applying](https://www.exeter.ac.uk/postgraduate/applying)

ASK US A QUESTION

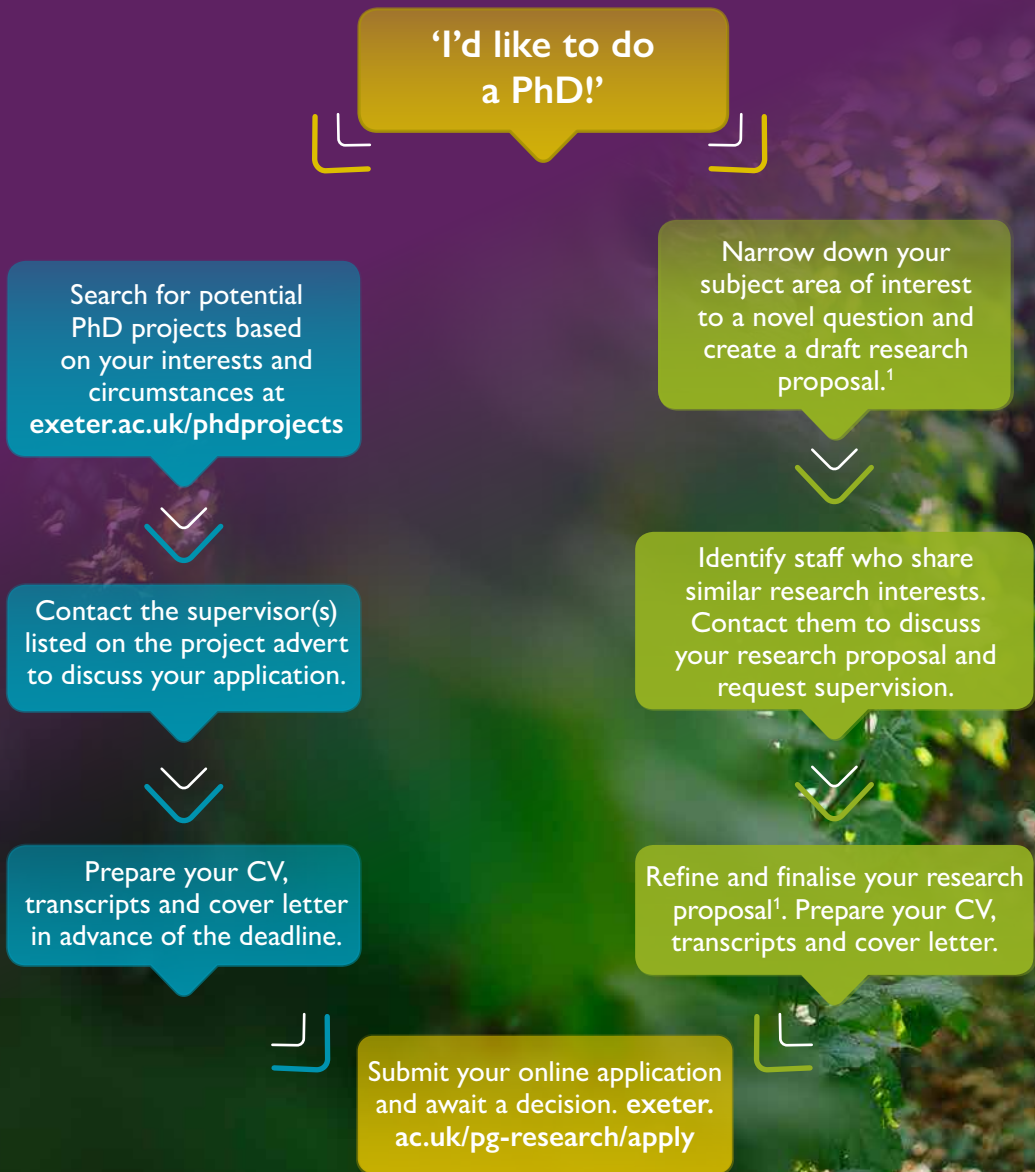

If you have any questions please do get in touch!
[exeter.ac.uk/enquiry](https://www.exeter.ac.uk/enquiry)

CHOOSE

Decide what course you'd like to study

Applying to study with us

Your PhD applicant journey

Italian Gardens, Penryn Campus

¹ See page 43 for guidance on writing a research proposal.

Follow either of the two routes outlined to understand how to go about identifying and applying for the right PhD. As a general rule, funded PhD projects tend to be more readily available in STEMM (science, technology, engineering, maths and medicine) subjects.

See online for details of PhD funding opportunities: [exeter.ac.uk/funding](https://www.exeter.ac.uk/funding) 

Fees, funding and scholarships

When planning how to fund your postgraduate degree, make sure you start early and think creatively; the sooner you do, the longer you have to research opportunities and get funds together. Alongside your tuition fees you will need to account for living costs and accommodation, as well as other potential course costs.

University of Exeter Global Excellence Scholarships¹

Our Global Excellence Scholarships of at least £5,000 are available for international fee paying students applying to study a Masters or PhD with us in September 2022, and will be awarded for outstanding academic quality.

As scholarships will be awarded from the beginning of the application cycle, we encourage an early application to ensure you are considered before all funds are allocated.

See online for more details:
exeter.ac.uk/globalexcellence

UK Government loans for Masters students

- Borrow up to £11,222
- Any Masters programme in any subject, taught or research
- Full-time, part-time and distance learning included
- Anyone aged under 60 is eligible
- Repayments are income-contingent with a £21,000 threshold

See online for more details including eligibility:
exeter.ac.uk/pgloans

UK Government postgraduate loans for PhD students

- Borrow up to £27,265
- Only available to students without a Research Council living allowance, who gain a place for doctoral study at a UK university

Visit the UK government website for more details including eligibility:
gov.uk/doctoral-loan

International students

As well as scholarships from the University, international students may be able to apply for one of the following schemes:

- Marshall Scholarships: marshallscholarship.org
- Colfuturo Scholarships: colfuturo.org
- Commonwealth Scholarships: cscuk.dfid.gov.uk
- Chevening Scholarships: chevening.org
- Fulbright Scholarships: fulbright.org.uk
- Saïd Foundation Scholarships: saidfoundation.org

¹ Select programmes only. Terms and conditions apply. See online for details: exeter.ac.uk/funding

University of Exeter finalists and alumni¹

We are pleased to offer University of Exeter alumni and graduating University of Exeter students, completing their degree this summer and progressing direct to a Masters degree or PhD with us in 2022/23, a scholarship towards the cost of their first year tuition fees. See online for details: exeter.ac.uk/funding

Other sources of funding

Visit our website to learn more about funding Masters and PhD study, and search our funding database for details of available scholarships: exeter.ac.uk/funding

Tuition fees

Tuition fees vary depending on the course. Visit our course pages for details: exeter.ac.uk/study

Useful information

What is a transcript?

You will need to provide a copy of your academic transcript to support your application, you can request this from your university. Standard university transcripts are official documents that show details of the qualification awarded, the modules taken in each year of study, along with the marks/credits for each module shown as appropriate.

What does the Admissions Office do?

Our Admissions Office deals with enquiries and applications for postgraduate study at the University. They process the large volume of applications that we receive and work closely with subject admissions tutors to ensure your application is given the attention it deserves. They will notify you of our final decision and be on hand to answer any queries you may have about your application along the way. You can contact them by completing our enquiry form: exeter.ac.uk/enquiry

Tuition fees

Tuition fees vary depending on the course. Visit our course pages for details: exeter.ac.uk/study

Funding

See online for details of our funding opportunities exeter.ac.uk/funding

Entry requirements

See online on our programme pages for details of entry requirements: exeter.ac.uk/studying

What is a PhD research proposal?

If you're applying to one of our PhD programmes, you will be required to submit a research proposal.

Your research proposal should leave a positive first impression about your 'fitness' to study a PhD. It needs to demonstrate that you are capable of independent critical thinking and analysis and can clearly communicate your ideas. There are six key elements you should include:

- A clear working title
- A clear statement about what you want to work on and why it is important, interesting, relevant and realistic
- Some background knowledge and context of the area in which you wish to work, include key literature people and research findings
- Some consideration of the methods/ approach you might use
- Some indication of the strategy and timetable for your project and any anticipated challenges
- A list of the key references which support your research proposal

See online for further guidance: exeter.ac.uk/pg-research/apply/researchproposal

THE QUEEN'S
ANNIVERSARY PRIZES

Awarded the Queen's Anniversary
Prize for combatting the effects
of marine plastic pollution.

Accuracy of prospectus information Every effort has been made to ensure that the information contained in this prospectus and on the University website is correct at the time of going to press. The University will use reasonable endeavours to deliver programmes and other services in accordance with the descriptions provided. However, changes may be reasonably required to programmes, modules, entry requirements, services delivered by the University or the content of the prospectus, for example, to meet the requirements of an accrediting body or to keep courses current and accurate or to respond to changes which are outside the reasonable control of the University e.g. a member of staff leaving the University, or to maintain standards of student experience.
