

From: Osama Alanazi  
To: University of Sheffield

### **Personal Statement**

My name is Osama Alanazi, and I am excited to pursue my bachelor's degree in Aerospace Engineering from the University of Sheffield. This degree program will allow me to explore myself in the practical field of aviation. This degree will enable me to gain more knowledge about functional and technical aviation management skills in the real world.

I am particularly interested in pursuing a bachelor's degree in Aerospace Engineering. Because I believe I have all the resources to excel in this area. This area requires a lot of judgment, understanding, and decision-making. This is because aviation issues need to be addressed before, when and after they occur. This indicates that aerospace engineering requires preventive and reactive measures when dealing with administrative problems. The need to address issues affecting the aerospace industry requires good planning, the development of the proper methods, and good communication within the company. I believe in my ability to manage all these responsibilities effectively. In addition to being an effective communicator, I am also a good team player Who respects the opinions of others. I can develop interpersonal skills to interact effectively with a range of professionals and implement agreed solutions effectively and efficiently.

I completed my Diploma in Aircraft Maintenance Engineering from International Aviation Technical College in June 2020 with a 4.1 GPA. I believe my current qualifications, experience, and this new bachelor's degree will help me achieve my career goals. My professional goal is to become an Aviation maintenance manager for a well-known company. A bachelor's degree in aerospace engineering will help me enter the highly competitive job market currently growing in the aerospace industry.

About my experience, I have worked in Saudia Airlines as an aviation maintenance technician and earned great experience. I chose the University of Sheffield because of its strong reputation, renowned academic excellence, excellent industry links, and flexible graduate programs. I believe that the proper education in the right school will open the door to advancement in my chosen field of study. The research and lab facilities available at the University of Sheffield complement my research interests and requirements, so being a student at your university not only enhances my professional development. Also, I believe it will give me the facilities to maximize my potential. I hope obtaining this qualification will be a tremendous educational achievement for building my professional career and development.
