

Statement of purpose

My name is Asma Alamri, a Saudi national, currently working in Saudi ministry of health, after I obtained a bachelor degree in general nursing from Bisha University with GPA 4.44/5

I have an experience for nearly six years as registered nurse in different regions around the kingdom. During my journey of career, I worked in various departments such as emergency room, surgical unit, pediatric and . Covid-19's patient

Studying nursing and working in critical department made me strongly believe in second and minutes matter. After Covid-19's heart attack, stroke and other serious cases have added extra load to emergency services around Saudi Arabia that required more work and develop the quality of the system

Therefore, I am passionate to study master in public health which I believe will build my knowledge and skills

Asking colleagues and making search for the course came up your university as one of the leading universities in field. I am submitting my required documents hoping my application will be accepted .

Regards,

Asma Alamri
