

## Statement of Purpose

The reason of applying to master of Early Childhood is to both expand on my knowledge in this field. I believe that studying for a master's degree at as University will help me prepare for a successful and challenging career in Early Childhood.

My diverse work and study experiences have given me a better understanding of what opportunities are available to me. I believe that master of Early Childhood will provide me with the tools to succeed in my future career. And I have always dreamed that I completed my educational journey in the Britain country which has great scientific and technical elements, it has many internationally- ranked universities, in addition to the model educational environment, which helps to extract the inherent inner forces, and achive the stage of creativity .

I have seen all the conditions required by those responsible for your master degree, all of which apply to, and the financial ability to pay tuition regularly, and there are no problems with that, knowing to the absolute commitment and diligence and perseverance in respect of the study, I also like the atmosphere of educational competition, and the constant knowledge of everything that is new.

That science has on borders, no homeland, and the human being to move and migrate in order to obtain knowledge, and motivated by curiosity innate, and identify everything that is new, and I continue to follow the impact of adults.
