

11 December 2020

To whom it may concern

I have had the pleasure and privilege to teach and supervise Mr Aymen Shaiany during his Bachelor of Pharmacy (Honours) undertaken at the University of South Australia in 2017-2020.

Mr Shaiany is a good and dedicated student who has done very well during his undergraduate studies at the University of South Australia. Mr Shaiany is very keen to continue his studies and develop his research and investigative skills.

I am delighted to provide a recommendation for Mr Shaiany to support his application to the Master's Program.

Yours Sincerely

Dr Agnes Vitry | Senior Lecturer | Australian Centre for Precision Health
UniSA: Clinical and Health Sciences | University of South Australia
