To Whom It May Concern

I am pleased to write this recommendation letter for Mr. Aymen Shaiany. I first met Mr. Shaiany when he came to the University of South Australia to undertake his Bachelor of Pharmacy (Honours). He was a student in the course I coordinate – Quantitative Methods in Health – and I came to know him both as his lecturer and tutor.

Mr. Shaiany was a dedicated student and I was impressed with his development through the course, given that he was new to data analysis. He adapted to thinking about and working with data quickly. This was reflected in the quality of his assessment submissions, which even at an early stage in his program showed his scientific curiosity and aptitude for working in an academic setting.

At a personal level, Mr. Shaiany proved himself to be a well-disciplined and industrious student. In my view he is a very good candidate for further study in a health-related field. His determination to keep developing his skills from the earliest stages in his bachelor's degree suggests that he would succeed in any Master program.

If I can be of any further assistance, or provide you with any further information, please do not hesitate to contact me.

Yours sincerely,

Dr. Malgorzata Korolkiewicz
Senior Lecturer, Mathematical Sciences
UniSA STEM
