Dear Selection Committee,

It pleases me to write to you concerning giving my highest possible recommendation for Mr ALWADANI. FAHAD HASSAN S. I know Mr ALWADANI, through his Tourism Bsc. studies and years after while discussion some issues related to Tourism and Hospitality disciplines. He was already interested in doing a Master. He was one of my best students.

He always raises a critical questions and he has an argumentative mind that always refuses to accept things without understanding. Mr ALWADANI has good abilities of thinking independently; in addition, he got very remarkable academic skills in tourism and hospitality studies such as scientific reasoning, deductive thinking and creative thinking that lead him to create new notions reflecting in his research. So, I believe if he got a chance to study in your highly prestigious university, where facilities and good academic services are provided, he will put all his academic skills to create new outstanding research.

He is very sociable man; he is extrovert who likes to talk with others. He got the talent to deal with others who are different and she has the ability to deal with different races and religions with respect and smile. He is determined to succeed and I believe he will do well in your Tourism and Hospitality programs. I am confident he will contribute to the programme.

This is my close official contacts
