

Recommendation Letter

To Whom it May Concern,

It is my great pleasure to recommend Taghreed Mazyad Alhuzaymi for admission in chemistry graduate program. I got to know Taghreed as undergraduate student for more than three years. I taught Taghreed many chemistry courses.

During that time, I was thoroughly impressed by Taghreed's commitment to understanding and exploring the hidden depths of topics. She is a highly productive person, respond to barriers and problem solver. Also, she is a unique combination of positive attitude and energy coupled with critical thinking and focus on outcomes and details.

To get straight to the point, Taghreed is, without a doubt, one of the smartest students I have had the pleasure of teaching at Shaqra University. It is my strong opinion that Taghreed would be a tremendous addition to your graduate program, and she has my highest recommendation. Please feel free to contact me if you have any questions regarding her character or past academic work.

Sincerely,

Dr. Layla Mohammad Ahmad
Chemistry Department at Shaqra University
