Important notes:

- 1- I will be sent by the Saudi Ministry of Defense.
- 2- The Saudi Ministry of Defense will cover and pay all the financial costs of studying at the university and institute.
- 3- One of the conditions of the Ministry of Defense for the scholarship is that the English language be studied for a period of 10-12 months, even if I have a TOEFL score, so I am forced to obtain conditional acceptance from the university. I hope you will understand my interest and passion to get admission in your prestigious university, knowing that I studied English for two years (one year in Saudi Arabia and one year in America), but the conditions of the Ministry of Defense force me to study English again, so I have no choice but to obtain conditional admission, my great gratitude to you.
