TO WHOM IT MAY CONCERN:

RE: NAJLA ABDULHAMID ALSAADOUN

It gives me a great pleasure to write this recommendation letter for **Najla Abdulhamid Alsaadoun**. She joined me as shadowing clinical attachment student on March 8-15, 2022. She attended all my clinical work in the clinics, wards, and labour room. She had the opportunity to attend normal deliveries and cesarean sections. During her rotation she showed great respect for her colleagues, she was punctual, cooperative responsible, enthusiastic, and eager to learn.

I believe she will do well in any program that she will join and will be able to succeed in achieving her dream of becoming a well recognized physician in her field.

Sincerely,

DR. SALWA NEYAZI
Assistant Professor and Consultant
Obstetrics & Gynecology Department
King Khalid University Hospital
King Saud University Medical City
