

To Whom It May Concern

I have known **ABDULRAHMAN BAQQAN S ALENEZI** for the past two years as he has taken the following courses which I teach: Fluid mechanics, Applied Fluid Mecanics and Turbomachines. As his professor, I have had an opportunity to observe the student's participation and interaction in class and to evaluate the student's knowledge of the subject matter. I would rate the student's overall performance in these subjects as superiorur.

As part of his grade in my courses he was hard worker and obtains high grads. co Applied Fluid and Turbomachines the student was required to perform a report. The report was designed to measure the student's ability to research. Based upon this, I rate the student's skills as excellent.

Based upon the student's academic performance, I believe the student would perform very well.

If you would like to discuss this further, please feel free to contact me.

Sincerely,

Associate Prof. F.Sh. Abou - Taleb
