

To whom it may concern

I am writing this letter of recommendation at the request of **Eng. Alanezi, Abdullrahman Baqqan**, as a former student of Mechanical Engineering at Northern Border University. I have known him for the past 1 year since he is an undergraduate student. After observing Abdullraman during his studies, he is a creative, and solution oriented person who is able to come up with new and innovative approaches to his studies. I am very pleased by his rational thinking, personal initiatives, and his willingness to accept challenging task of his study.

He attended three courses ME-422 (Applied fluid mechanics), ME-423 (Turbomachines) and ME-487 (gas turbine and propulsion). He is very active and hard worker. He Strives for broaden his horizons. Furthermore, Abdullraman is self-confident, well behaved and has morals. I fully enjoyed his presence in my class and I would higly recommend him without any reservation.
