Recommendation Letter

TO WHOM IT MAY CONCERN:
RE: SAHAR SALMAN AL-ISMAIL.

I am very pleased to write a letter of recommendation on behalf of Sahar Salman Al-Ismail . Who was worked with us in the section of critical care area as Medical Secretary.

Sahar has been graduated from ISHbeleia Health institute from Riyadh, Saudia Arabia with medical record diploma degree, she worked with us almost 8 month. As consultant Intensivist and Deputy of critical care section. I personally interacted and observed her work, her relationship with Nurses and physician are excellent. Sahar is also excellent at communicating with other member of the health care team. Her training in our critical care area helped her to build up an experience in her field.

I truly believe that Sahar possesses the qualities that will make her an ideal addition to your institution. I warmly recommend her to any future scholarship or clinical position within her field. If there are any remaining questions, I will be delighted to provide further information and assistance.

Respectfully,
Dr. Leila Al-jaroudi, MD
Consultant Intensivist
Deputy Critical care medicine
P.O box 8147, Dammam- 31482
Dammam medical complex

TO WHOM IT MAY CONCERN

It gives a great pleasure to write this testimonial for **Sahar Salman Alismail** she has been working as a Secretary in Intensive Care Unit since for one yea at Dammam Medical Complex, Dammam, Kingdom of Saudi Arabia.

During the course of her employment, she carried out her duties and responsibilities with exceptional initiative. She is hard working, committed to provide the best of her experience and has a good relationship with her colleagues, doctors.

I could attest that she has no misconduct record, never been subject to any disciplinary action that may affect her personality and character. I am confident that she will be an asset in any institution she wishes to join.

This certification is issued upon her request for whatever purpose it may serve her.
