To Whom It May Concern  
Re: Maya Mazen Tammar  
Date of Birth: 23 October 2005

It is my pleasure to recommend Maya Tammar, a student enrolled in the American Diploma Program at Jeddah Knowledge International School for the undergraduate program at your institution. I have known Maya for two years in my capacity as her Business Management teacher.

Maya is an enthusiastic and open-minded student who displays an interest in exploring new fields. She is a critical thinker and analyzes situations from all angles before taking any decision, which also shows her patience in handling a problem. During class discussions, Maya displays her analytical skills. She is liked by her peers as she is mature, generous and empathetic towards them. She is committed and sincere in any task that she undertakes. Her assignments are always submitted before the deadline and are of good quality.

Outside of school, Maya is an active volunteer administering children's activities which her neighborhood charity center provides. She tutors her younger family members and is a strong support for them. Her hobbies include reading and painting. She feels that painting is therapeutic and allows her to show her creativity. Reading gives her a chance to learn new things and practice them in daily life. In the future, Maya sees herself as a successful screenwriter, she also writes short stories in her free time.

Maya's drive and abilities will allow her to make an outstanding contribution to any undergraduate program she is applying for. It is for these reasons she comes highly recommended to your institution.

Regards,

Hina Siddiqui  
DP Business Management Teacher
