

ALZHRANI, SALEH MOHAMMED A – Statement of Purpose Letter

I am a graduate of Economics from Umm Al-Qura University in Saudi Arabia. My Economics degree has provided me with a strong foundation in Marketing, Finance, Accounting, Human Resource Management, Project management, and Management Information Systems.

After graduation, I got a scholarship from my government to study the English language in the USA to prepare for pursuing a master's degree. Therefore, I joined the ELI at California State University to study the English language, where I developed my skills in communication, writing, speaking, reading, and listening.

After the completion of the English Language Program, I have hired by the Ministry of Energy in Saudi Arabia to work for a position as Human resources specialists. Therefore, I had to decide to either postpone my scholarship and take this position or moving forward to pursue a master's degree. Considering this, I postponed my study and take the position because I want to be involved in a work environment that can enhance my knowledge and skills along with practicing assignments in Human Resources Management. I have been working in the Ministry of Energy since 2018.

After accumulating sufficient experience, I decided to pursue a master's degree in Human Recourses Management since I am a candidate to receive a full paid scholarship from the Ministry of Energy in Saudi Arabia to pursue a master's degree in Human Recourses Management. Therefore, I have reviewed some of the graduate programs in Human Recourses Management worldwide, but I am interested to applying for the Master of Science in Human Recourses Management at Aston University because this program has developed by following the standers of the CIPD's HR Curriculum Guidebook and Templates.

I am sure that the program will effectively prepare me to take up a challenging role in the HR field, complementing my long-term career aspirations. I want to further develop my skills and understanding of human resource management to become an HR leader in the Ministry of Energy in Saudi Arabia. I look forward to being admitted into the Human Resources Management Program at Aston University, pursuing my passions, and representing the University with pride.
