Since I was a child, I used to watch movies with my family where I see lawyers defend their clients. Also, definitely the power of law and legal systems around the world is presented on television, social media, and through the movies or Tv shows. By reading more about law as I grew up, I understood the power of a good lawyers, judges, and law system. Law is one way for saving lives and keep other lives just safe and protected.

Ever since, I understood the effects of law, the power, the ability of changing life itself; law became my passion. I always desired to be capable of helping people and I found my way to doo so. Yet, I need to gain the accurate knowledge as well as professional experience and I found the place where I am destined to pursue my knowledge at; your esteemed university.

I am a strong determined young lady who never give up on anything that I put my mind to it. Through the years school I have developed some of my personal skills which I believe it would help me in the future. For example, I am strongly disciplined, I have excellent communication skills, reading, writing, problem-solving, critical thinking, and time management. I am aware that those are basic skills, yet I am willing to develop and gain more skills on a personal level as well as a professional level.

I am confident, passionate and driven to study Law abroad at your esteemed university and I am prepared for the determination and dedication that a Law degree requires. I am looking forward to the new opportunities and experiences that awaits me at the university. I will strive for success in both my studies and extra-curricular activities.
