### To whom it may concern

I am delighted to write this letter to recommend the admission of Mr. Muhannad Mulfi, for the Master's degree in MBA at your esteemed institution.

I have worked with Muhannad for the past two years. where he was recruit after serval years in Saudi Aramco company. He officially joined the Ministry of Energy in October 2020 due to his hard-working who is eager to learn new things and apply it practically. I was fortunate to be his mentor as I am Deputy Minister at the Ministry of Energy.

Muhannad is extremely organized and has excellent communication skills. he can perform well within deadlines even under pressure and has the skills to lead a team skillfully. he possesses design thinking abilities and can critically analyze the issues to foresee upcoming problems and can work out solutions by going beyond the call of duty if required.

When he joined the Ministry, he used to silently observe the procedures and asked the right questions to understand the whole system. He likes to challenge himself and sets goals that may seem difficult to others but the leader and the executor in his know how to take things forward and make them work. In addition, to excelling at day-to-day tasks and offering guidance and support to those around him.

I supported him when he expressed his desire to move to graduate degree because he wanted to develop his knowledge in his field of the Business Administration & Management and come back with more knowledge and experience. He deserves to get in-depth knowledge of Business Administration systems as he can use that knowledge to benefit the Ministry, community, and surroundings to say the least. I strongly recommend his admission to your honorable university and look forward to seeing him emerging as a more superior person as a higher education opportunity at a world-class institution that will add a new dimension to his career.
