To Whom It May Concern
Re: Joud Mohammed Tayeb
Date of Birth: 07 May 2005

It is my great pleasure to recommend Joud Tayeb for admission to your institution. I have taught Joud for one year and was delighted to serve as her IB Physics SL teacher at Jeddah Knowledge International School. During that time, I watched Joud grow into an outstanding individual who excels in both her academic and personal pursuits.

Over the past year, Joud has shown exceptional academic performance in the Physics subject. She has an outstanding characteristic, which is responsibility. Joud was always one of the first students who submitted tasks on time. Moreover, I witnessed her extraordinary ability to quickly understand advanced physics concepts and then adeptly apply them to real world situations. In addition to this, Joud was one of the top students in class in terms of the high grades she received and her unforgettable character.

Joud's academic accomplishments are rivaled only by her personal strengths. Her compassion and charisma are beyond her years and she is well-respected by her peers, as well as all those who had the pleasure of teaching her. Apart from all of this, Joud is a very organized student, her copybooks and the work that she submitted were perfectly arranged which in return clearly indicated her passion in the subject and how much she liked to take care of her belongings.

Aside from Joud's academics, she also once held a position as a teacher in an art club where she had to teach elementary students how to draw and paint. This position has helped Joud in developing her leadership skills as well as her reinforcing her sense of responsibility. Joud was also in student council and a MUN member and these activities helped in strengthening Joud's public speaking skills as well as how to organize and manage her time between her school tasks and her outside activities.

In addition to that, Joud has been considered as one Saudi's most gifted 2% in the Kingdom after scoring 780/800 in the MAWHIBA program which is offered to gifted Saudi students.

I recommend Joud without reservation. I am confident she will make an excellent addition to your university.

Sincerely,

Ms. Hiba El Nahhas
MYP/DP Physics Teacher
