

December, 2022

To whom it may concern:

I have known Miss Reetaj al-shohtey for two academic years in my capacity as a physics teacher at Yusr International School. Reetaj took Physics from me and earned high grades in this class. Reetaj is a joyful productive helpful caring person who works hard and improves herself. Based on Reetaj's grades, attendance and class participation, I'd rate her academic performance in my class as excellent.

Reetaj is motivated and hardworking student. She approaches scientific problem with creativity and enthusiasm, displays a very good theoretical and technical background. If her performance in my class is any indication of how she will succeed, Reetaj will be a positive addition to the program.

Reetaj is a calm leader that helps others actively and in good manners. She is a motivation for her mates. She is an organized person that sets a target and achieves it on time; her presentation of projects is attractive and interactive she makes all the attendees feel interested and excited about the topic.

Sincerely,

Sahar Mustafa Fazanani
