| <p>Dear Admissions Committee,</p> <p>It is with great satisfaction that I recommend Rimaz for admission to your program. I had the joy of teaching Rimaz for the first semester of 2022. Rimaz is one of the exceptional students I have taught, and I am beyond impressed by her academic performance and her leadership skills .</p> <p>Throughout the semester Rimaz was an active participant in our discussions, and she always supported her peers. Her caring nature and personality allow her to work well with others in a team setting, as she always respects others' opinions even when they differ from her own. I found Rimaz a very committed person who likes to put a lot of efforts in her studies and apply the theoretical knowledge and use them practically to benefit from them. She is very inquisitive and always want to widen her knowledge that she accumulated. During her co-op she was extremely excited and looking forward to gain knowledge and experience and learn more about the work field. She is very ambitious and driven to learn by asking her instructors' constantly to assign her with tasks and conveys their experiences to her .</p> <p>Rimaz is persistent and had a vision in her mind. She wants to strengthen and internalize her expertise in technology and business through practical use of her knowledge. She is working on herself by taking courses and workshops provided by the college to improve her capabilities and skills .Rimaz goal is to give a 100% in every situation that occurs while benefiting from the courses she takes. on a bigger picture, her vision is to leave a print in the world .</p> <p>I am certain that Rimaz is going to continue to do great and creative things in her future. I highly recommend her for admission to your program .Please feel free to reach out to me if you have any questions.</p> <p>Sincerely,</p> <p>Asra Mogharbel Ph.D. M.Sc.
