Subject: College Recommendation Letter from a Teacher/Counselor

Respected Sir, Madam,

It gives me great pleasure to write this letter in support of Miss Sara AlJahdali's university application. Under my tutelage at Dar Jana International Schools, I am her current Biology teacher. Of what I know about her, Sara is an active, determined and risk-taker young lady. Miss AlJahdali is open-minded and works well individually and in a team setting. She always has a good mood, making the atmosphere pleasant to work in and providing a positive environment for learning.

Sara has always contributed insightfully and is very inquisitive and engaging. On many occasions, Sara steps into the breach and speaks up, not only contributing to the other's understanding, but also launching a stimulating class discussion. Her scientific abilities and knowledge are truly appreciable allowing her to create and integrate broad and deep scientific discussions. She represents high levels of critical thinking skills. She is distinguished by remarkable scientific potential as well as her willingness and desire to learn. I have always appreciated her continuous participation in the scientific activities established during her academic years.

Sara has a rich portfolio when it comes to volunteering. She has volunteered in a couple of activities in her neighborhood, from a garage sale in selling jewelry to aiding in its advertisement. Sara is a pet-lover, and this is reflected in her love for cats. Sara rescued over 30+ ill cats living in harsh conditions (either street cats or cats that got thrown out by their owners) and took them to the vet for treatment. She is such a kind individual with strong empathy towards humans and animals.

Sara combines all the assets that will make her an excellent candidate to continue her studies in any field she wishes to pursue. Thus, I highly recommend her application for admission without hesitation. Please feel free to contact me if you have any questions at [science.heraa@djis.edu.sa](mailto:science.heraa@djis.edu.sa).

Sincerely,

Biology High School Teacher
