

Physics Department

**To Whom It May Concern**

I knew Ms. **RAGHAD MUTIQ SAEED ALBALAWI** for two years while teaching two theoretical physics courses to her.

She shows interest and tries as she can to achieve her goals. An excellent cooperative character also characterizes her. I can say that she is a hard worker who persuades her dreams and ambitions.

I believe she will remain a hard worker all her life, so I think she will be an excellent addition to any work field.

With my best regards

### To Whom It May Concern

I was asked to write a letter of recommendation on behalf of Ms Raghad Mutiq Saeed Albalawi. I am pleased to do so. I have known Ms. Raghad as a student in the Department of Physics at Taibah University. I taught her a couple of courses such as (Experimental physics 5 and Semiconductors physics).

In my observation, her proficiency in English Language is good, and I would rate her academic abilities, initiative-taking capacity, attendance, attention to assigned work and responsibilities, character and conduct "very good".

I always found Raghad to be intelligent, reliable, hard-working.

I highly recommend that you consider her application, as she will be a great asset to your program. I'm sure you will find her to be a student whose talents will only shine further through your graduate program. It is my hope that you will accept her admission. If you have any questions regarding this recommendation, please do not hesitate to contact me.

Yours Sincerely,

Doctor: Douaa Bakeer
