To Whom It May Concern,

This letter of recommendation is written for Dr. Osama Khalil to support his application for admission to a master's degree in management program. I knew Dr. Khalil as a teaching staff when he attended my classes during his undergraduate study at the College of Dentistry, King Saud University in Riyadh, Saudi Arabia in 2015-2016.

Dr. Khalil academic standing was excellent. He performed his academic and clinical tasks diligently with compassion to his patients. His scientific merits, keenness and approach are those of a highly promising professional in his field. He has an amiable personality, high ethical values and good communication skills.

Dr. Khalil manners with colleagues as well as with patients were always professional. His personality and integrity are, in my opinion, of high quality.

I would be happy to receive any inquires you may have in this regard at the contact information listed below.

Prof. Ra'ed Al-Sadhan *BDS, MSD, Diplomate ABOMR*
