

To Whom It May Concern,

This letter of recommendation is written for Dr. Osama Khalil to support his application for admission to a master's degree in management program. Dr. Khalil was one of my students during his 3rd and 4th year for his undergrad studies for a bachelor's degree in Dentistry, 2016-2017.

Dr. Khalil was a hard-working student, academically and clinically wise. He had good rapport with his patients and colleagues alike. Demonstrating his openness and eagerness to learn, adapt and overcome the many challenges of becoming a dentist. These qualities in addition to his professionalism in work is why I would recommend him for admission.

You may contact me below with any questions or inquires that u might have.

Dr. Ahmed Fathi Al-Omar. BDS,MSc,Ph.D., OMFS (GBOI)

**Associate Consultant, department of
Oral and maxillofacial surgery**
