

## Recommendation Letter

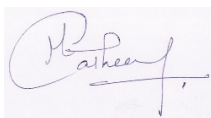

It is a great pleasure for me to recommend *Yazeed Majed Hawalah* for admission to the universities. He has a high aptitude for problem solving in his own styles, applying himself with persistent dedication and often going beyond the regular class assignments. His interest specifically in ICT subject with an excellent proven record. *“He learnt programming languages such as python which will help to understand the advanced courses AI, Data Science and Machine Learning”*. Alone with this he is expert with other computers software’s for the productive work. Highly Motivated and Self-learner with more enthusiasm with research skills.

Proven record with his personal qualities are as impressive as his intellectual accomplishments. An extremely kind, sensitive and sensible boy.

Therefore, I sincerely hope you will offer him a place in your freshmen class! I hope he will give his all efforts to achieve his goals by showing his extra ordinary skills.

Wish him bright future ahead!!!

Thank you

Mohammed Abdul Matheen  
Head of ICT Dept.  
Dome International School  
Riyadh  
Saudi Arabia
