

**Our Vision:** To create an atmosphere, which encourages high educational achievements, develops exemplary character and fosters multicultural awareness.

**Our Mission:** To provide our students with a challenging standard of education with a fully integrated curriculum which develops academic and social skills in a stimulating, technologically modern, enjoyable and secure environment.

5<sup>th</sup> March 2023

To  
Admissions officer,  
Subject: Letter of recommendation for Laith Saad Alsultan.

Dear Ma'am/ Sir,

I am writing this letter to propose the name of Laith Saad for admission to your university program.

#### **Approach to Learning: (Above Average)**

- Laith has always done very well in Chemistry with exceptional grades and has shown a remarkable ability to connect the topics. He sees the connections between his academic experiences, is able to bring knowledge from one area into another, and, most importantly, to connect his knowledge from outside of his Chemistry courses to that which he does in class. He knows how to approach problems as a mature chemist would; he knows how to ask good questions, and he knows where to go to start getting answers, whether they are found in the literature, found in conversation with other chemists, or found through experimentation in the laboratory.

#### **Personal Accomplishments: (Above Average)**

- Laith is one of the most hard working and consistent student in the class. Be in the academics or the co-curricular activities, Mohammad has always made it a point to be a part of most of the school competitions. He is exceptionally good at sports and has won several racing competitions in the past years. As far as I have observed, Laith loves facing new challenges and makes his way through every hurdle that he faces.

#### **Communication Skills: (Exceptional)**

- Laith has developed great communication skills over the past several years, as he is able to generate technical questions and answers in an instant as well as being able to deliver his point clearly. This skill has helped him in several ways including being on the top of his class when it comes to presenting and communicating.

#### **Creativity: (Above Average)**

- Laith has the ability to create his own lab experiment, by connecting Science/ chemistry to real world problems. This has generated a great creative mind for Laith, as it also enabled him to think of simple, efficient, and working solutions quickly.  
Laith has been able to creatively create solutions for problems of different kinds academically and non-academically.

**Our Vision:** To create an atmosphere, which encourages high educational achievements, develops exemplary character and fosters multicultural awareness.

**Our Mission:** To provide our students with a challenging standard of education with a fully integrated curriculum which develops academic and social skills in a stimulating, technologically modern, enjoyable and secure environment.

**Ability to work with others: (Exceptional)**

- Laith demonstrated exceptional leadership skills, he is an excellent team player and always loves to work with team and collaborate in professional and respectful approach.

**Maturity: (Above Average)**

- Laith has held the position of class monitor and was also the coordinator of his sports team which reveals him leadership skills. He has also shown maturity when it comes to safety in scientific spaces as well as amongst his colleagues, as he always took the role of being a leader in projects, researches, and experiments. Laith will be an excellent addition to any university or institute.

If you have any questions about Mohammad, please feel free to contact me +966578869368 or [M.khan194@maarif.com.sa](mailto:M.khan194@maarif.com.sa)

Sincerely,  
Muhammad Imran Khan Abbasi
