Recommendation Letter

I write this letter with utter confidence of recommending my student Mouza to your respectable institution. I've taught Mouza since the last trimester of last year, and albeit it being a very short time that I've had her as my student, she proved to be very academically and personally distinguished. Mouza excelled in Mathematics, not only in tests, but also during class as she engages a number of times during the lesson. I've noticed a very remarkable quality in Mouza in the very first weeks of teaching her and that is she possesses confidence in her skills. She loves to prove herself capable of any task she's given. Mouza is always on time with tasks, assignments as well as attendance. She's very respectful when she talks to anyone, regardless of age, and carries a friendly smile with her everywhere she goes. She's very consistent with her work as well as performance during and outside of class. Whether she was given an assignment or not, she makes sure to constantly keep herself up to date with the material and asks questions whenever she has any doubts. Her engagement in class is outstanding, proving her to be greatly capable in critical thinking and problem-solving. Not only does she possess a great basis in mathematics, but she shows an incessant desire to build on her previous knowledge, which encourages me and other teachers to introduce new concepts and teaching strategies to accommodate her needs. One incident I remember from last trimester when I was teaching her class (it was my very first time); her class, of thirty-something students, for the most part, was driving me crazy and despite the noise, Mouza remained engaged in class and continuously interacted, which looking back at it now, it gave me purpose to keep going. Mouza possesses a bubbly personality, whenever I see her in the hallway, she wears a warm smile and carries a conversation. I believe she's strongly opinionated and doesn't hesitate to voice her doubts and concerns when in need. She's very confident in her abilities and her desired career, and she shows it through her dedication in her studies. Mouza is a very reliable student, and I wouldn't think twice about trusting her with any matter at any point in time. I strongly believe that Mouza would excel in this chosen field and give her all to it. She would be a great suit to your respectable institution and continuously add to it as she grows.

Sincerely,

Esraa Khalil (esraa.soliman@ese.gov.ae)

Dear Admissions Committee,

It is my pleasure to recommend Muza, who I taught in my 11th&12th grade chemistry class. Muza demonstrated tremendous effort and growth throughout the two years and brought a great energy to class. He has that combination of a positive attitude and the belief that she can always improve that's rare in a high school student, but so essential to the learning process. I am confident that she will continue to display the same commitment and diligence in everything she does. I highly recommend Muza for admission to your school.

Muza's strong belief in her ability to acquire new skills and improve through practice was likely shaped by her years as a participant in science fair competition. She's shared all through high school and is one of the student's most valuable participant. Muza designed an impressive project calculating and analysing data with amazing demonstration. Muza reaped the benefits of her tremendous effort and found a way to make the subject come alive for her in a way that she was personally invested in. As a teacher, it is incredibly fulfilling to witness a student make this kind of academic and personal progress.

Muza is a trustworthy, reliable, good-humoured student and friend who supports others in and out of the classroom. She was a pleasure to have in class, and her positive attitude and belief in herself, even in the face of difficulty, is an immensely admirable asset. I'm confident that she will continue to demonstrate the same diligence, perseverance, and optimism that he showed myself and her peers. I highly recommend Muza for admission to your undergraduate program. Please feel free to contact me with any further questions at Doaa-Ae.Ahmed@ese.gov.ae.

Sincerely,

Mrs. Doaa Elsayy Ahmed
