To Whom It May Concern

Re: Reference Letter for Eng. Yasir Bin Theeb Bin Saleh Aldalbahi

Dear Madam/Sir,

I have known Engineer Yasir Bin Theeb Bin Saleh Aldalbahi since his undergraduate studies at the Department of Electrical Engineering, King Saud University. I knew Eng. Yasir from one course I have taught him in the undergraduate level. He was one of the distinguished students who have shown good performance as well as excellent research skills. In addition to that he enjoys a decent personality making dealing with him quite pleasant. I believe that Eng. Yasir has intellectual potential, persistence, and motivation making him an excellent candidate for postgraduate work in Electrical Engineering.

Yours sincerely,

Saleh Alshebeili

Prof. Saleh Abdullah S. Alshebeili
Professor of Electrical Engineering
Director of KACST-TIC in RF and Photonics for the e-Society (RFTONICS)
Department of Electrical Engineering
King Saud University (KSU)
Riyadh 11421, Saudi Arabia
