To Whom It May Concern:

It is my sincere pleasure to write this letter recommending Asiri, Ruba Saad for attending the Master Program at your university. I've known Ruba since 2021/2022 when she completed my course in Modern Literary Movement at King Khalid University. In this course, her works were substantial and well-focused. I also recall that Ruba was one of those few I could turn to when I needed to spark discussion; she was never lethargic, uninterested, or unprepared, but always willingly thoughtful and articulate. Ruba provided me with a touchstone for what was best in the class.

Since she took the class and based on these interactions, over the last year I have come to see Ruba as a bright, personable, energetic, and mature person with a concrete, ongoing, well-rooted interest in learning. In short, it is clear to me that Ruba Saad is and will continue to be devoted to becoming the best kind of postgraduate student. Thus, I recommend her highly.

Sincerely yours,

Nora Alqahtani
