To whom it may concern,

As Professor in Effat University, I met Retal Al Ghamdi in my “Psychopharmacology”, “Forensic Psychology”, and “Child Clinical Psychology” courses. She earned A and B+ in her classes. She was evaluated on two exams and two papers in which she performed exceptionally well.

During class discussions, Retal has continuously expressed her opinions, revealing her knowledge of psychological material. She has been a key element for her team project displaying well-built analytical and managerial skills, and ability to be a mediator between teammates.

Though Retal has exceeded in all areas of her coursework, the best example of her promise is indicated in an interactive analysis on “Psychopath serial killers”. The work clearly showed her ability to deliver a clear, concise and well-thought presentation as well as her research skills in Psychology.

I am sure you will find Ms. Al Ghamdi to be a highly motivated, competent, and committed student.

Please feel free to contact me if you require further information.

Toni SAWMA, Ph.D.
Assistant Professor of Psychology
