

We grew up learning that a dream is a wish our heart makes, and in dreams we lose our heartaches, don't we? Allow me to introduce myself before going any further, my name is Yousof Abuzeid and I am a young man who have graduated from high school recently. I would like to apply for a bachelor degree in Artificial Intelligence at your esteemed university. I am a hard working, ambitious, full of hope young man who is willing to take the extra mile and give my best for my future. In the following lines, I would love to tell you why I choose to major in Artificial Intelligence, and a little more about myself.

Artificial intelligence is the future in which the world relies on technology today in various areas and in different ways. Furthermore, the reasons why I choose to major in artificial intelligence because my interest in the field grew at an early age and today it is a successful field. In addition, I would like to be a part of the development that is happening in the world. Also, I have always dreamt of having a career that I love and to be passionate about; in which I found that in artificial intelligence. Last but not least, to help humanity develop in various ways yet with balance as I would like to develop the advantages of artificial intelligence and reduce the disadvantages which could lead to harm rather than benefits.

On the other hand, I am a student who works hard and make an effort to deserve my grades. Also, I am a self-motivated person, highly optimistic, and always curios to know and learn more in life. throughout the years of learning at school and the community services I have volunteered at; I have gained some important skills. For example, time management, communication skills, presentation skills, dealing with large audience, problem solving, and decision making. I am hoping to develop and acquire more skills at a professional level at your esteemed university.

I assure you that you will find me a hard-working individual, one of the most brilliant students, a fast learner and a highly motivated person. I am full of hope that the chance of pursuing my future dream at your respected educational institution will prepare me on a personal and professional level.

Sincerely,

Yousof Abuzeid
