

To whom it may concern

11-05-2020

**Subject: Mr. Talal Mathkar Nawar Althiyabi- Letter of recommendation**

*Graduated at the end of the academic year 2018 -2019*

*I have known Mathkar now for more than 4 years while he was studying at the department of Radiological Sciences, college of Applied Medical Sciences and his internship period.*

*Mathkar is emotionally stable person. He is very well mannered, respected, and liked by faculty and colleagues.*

*During this period, he was a serious and enthusiastic and inquisitive student. He participated in class discussions and answered questions which helped in creating interactive sessions. His efforts during his study were reflected in Very high final GPA of 4.14 out of 5.*

*During his final year project, which was on:*

*“Correlation Between Common Femoral Vein Diameter and Age and Sex Measured by Doppler Ultrasound and Valsalva Maneuver Response”.*

*Mathkar and his partners in the research were determined and committed to complete the required tasks and worked hard to accomplish the project and submit a full report.*

*I have no hesitation whatsoever to recommend Mathkar to take up a position to continue his studies to acquire higher degrees or to take up work with a serious organization. I wish him all the best in his future career.*

**Khalid Yousuf Farid**
