Letter of recommendation

October 5, 2017

To whom it may concern:

I am pleased to write a letter of recommendation for Alsharari Fahd. He took three classes from me and received very good grades in all three classes (A, A-, B+). He is a fast learner, well organized, and understands the requirements to finish the job very well. He comes on time to the class and doesn't hesitate to ask questions if he don't know how to solve the homework questions or anything related to the subject. I always encourage my students to work in a group while doing the homework which will help them to improve their knowledge and he always come to my office with his colleagues with questions.

Please contact me if you have any questions and concerns.

Kind regards,

10/05/2017
