

To Whom it May Concern:

My student Badr Ayed Sawady Alenazy has requested a letter of recommendation. It is my pleasure to do so.

Mr. Badr Ayed Sawady Alenazy has been conscientious in carrying out assignments and contributed to our classes in a very helpful way. His participation has been most welcome and shows a potential for filling leadership roles in clinical or administrative capacities.

Academically this student has distinguished himself as a successful student in his major and has become confident in applying the skills which our curriculum emphasizes.

We are in need of this type of professional in our field which is critically understaffed. He should be a valuable asset to our team at the completion of his studies.

Sincerely,

Sami A. Alhamidi, R.N, PhD

Vice Dean for Graduate Studies & Research
Assistant professor, King Saud University
