August 2020

Dear student

Congratulations on successfully reaching the end of your programme. You will find attached to this letter a document to evidence that you have completed your programme of study and a transcript which details your performance in the individual modules you completed. This is an accurate record of achievement and can be used when you apply for employment or further study.

You have completed your degree during the Covid-19 pandemic; one of the most difficult periods of this country's recent history. As part of the University's response to this, we (along with a large number of other UK institutions) introduced a 'no detriment' approach to student assessment. This included the adoption of temporary changes to assessment procedures or academic regulations and degree algorithms that were needed to support all students during this very challenging period.

As a University, we feel that your additional work and efforts during this time must be recognised. Depending upon your future career choices this may be an accompanying letter that you wish to present to a future employer to further evidence alongside your degree certificate your adaptability, resilience and ability to manage real-world problems; all of which are core Roehampton graduate attributes that any employer would welcome. Whichever path you choose next, we wish you every success and we hope you will stay connected with Roehampton as a valued member of our world-wide alumni community.

Kind regards,

A handwritten signature in black ink, appearing to read 'Nancy Richards'.
