

## **Recommendation Letter for Talal Alhuraybi**

This letter is to recommend Talal Alhuraybi for MBA program. I have directly supervised Talal for the past year and another year before as planning and performance analyst. In my working experience with Talal, I have personally witnessed his dedication, hard work and value added to the organization. He has led most of the business plan, operation plan and budgeting activities in the organization. In addition, he trained and mentored those new comers in the organization to help them accomplishing their tasks. I am pleased to recommend Talal Alhuraybi to pursue a Master degree at your school.

During the time that I have worked with Talal, I can describe him as an individual who eager to learn new things, increases his knowledge, share best practices and looking forward to add value to the organization. Talal always volunteers to lead major activities, getting new assignments and in addition he is a team plyer and self-motivated. I always receives great feedback whenever he is assigned with new team or tasks as he takes the responsibility and commit to the assigned task.

Talal is a fast learner, he joined our division as a trainee and start picking up to the point that we forgot that he is a trainee and dealt with him as fully trained employee that has sufficient experience to handle difficult situations.

I highly recommend Talal to be part of your program.

Regards,

Ali M. Al-Gulaiti  
Group Leader, Planning Group  
Planning & Performance Management Division  
Technology Oversight and Coordination
