PROFESSIONAL SUMMARY

Enthusiastic, optimistic, and ambitious **Chemist** who believes in continuous learning. Fond of chemical analysis in its wide varieties of both quantitative and qualitative methods and **research**. Also, interested in **Quality** and **R&D**.

SKILLS

- **Quick Learner**
- Self-motivated
- Attentive listener
- Good communication skills

EDUCATION

January 2018 - January 2022

Bachelor's Degree in Chemistry with **Honor Class** with a GPA of **4.67** out of **5** from College of Science - Qassim University.

GRADUATION PROJECT

Removal of Phenolic Compounds from Water by Adsorption and Photocatalysis.

EXPERIENCE

September 2021 - December 2021 (Trainee at NWC)

- Analyzing water samples using spectroscopy, pH meter and Conductivity.

February 2022 - March 2022 (volunteer at Albadaya General Hospital)

- Analyzing blood samples using DxC 700 AU chemical analyzer and Cobas chemical analyzer.

October 2022 - (Quality control Chemist at SAUDI LIME)

- Analyzing Limestone, Quicklime and Hydrated Lime samples chemically and physically following ASTM.

COURSES

- Orientation Training in **Manufacturing Industry** by (HIPF).
- Fundamentals of **chromatographic** separation and analysis methods using **HPLC**.
- **Quality** Management According to ISO 9001.
- Occupational **Safety and Health** Management (OSHA).
