16.11.2022

To whom it may concern:

Mr. Mohammed Osman K. Osman was my student at MENG 332 Control Systems. He was a bright, hardworking student who was an attribute to the class. His comments in class discussions were well. Based on his performance in my class I have not the slightest doubt that he will be very successful in his future choices. I do not hesitate to recommend him for his further education .

To be able to work cooperatively and productively is very important for him and he is always planned in advance for the duties he needed to do. Additionally **Mr. Osman** has a contingency plan for emergency cases. He was always willing to share and reflect his knowledge with other friends. He is always prompt and would be an asset to any employer. I recommend him for any endeavor he chooses to pursue.

Yours truly,

Asst.Prof.Dr. Alper Doğanalp
