To Whom It May Concern

Ref: Abdulelah Alabdulwahed

I came to know the above-mentioned name in 2016 when he was student at medicine classes, College of Veterinary Medicine, King Faisal University. He was patient, diligent and hard working person. He was very social and well popular and loved between his lecturers, friends and colleagues. He showed good capabilities in theoretical and practical during his dissertation work under my supervision. At the same time he is very responsible towards all his tasks. I strongly recommend him for any post- graduate study (master) abroad.
