Scientific Recommendation

During his study for the B.Sc. degree, Mr. Mohammed Fahad M. Althayaybi was one of my students and is known to me since I taught him the course 441 Zoo Histochemistry . I still remember that he took a very good grade in this course and he is the only one got such grade among his group. He has always impressed me by his hard work and excellent behavior.

He is a good observer and accurate and honest reporter of what he sees. Above all he is a very enthusiastic young man with great initiative and capable to work nicely with others in groups.

With utmost confidence I recommend him to study for the M.Sc. and Ph.D. degree in Biology.

Dr. A. A. Al-Saleh (Ph.D., St. Andrews, UK)
