Recommendation Letter on behalf of: **Mansour Abdulhamid Al Alyahya**

To Whom It May Concern,

I want to write this recommendation letter on behalf of Mansour Abdulhamid Al Alyahya, an outstanding employee who has been working as safety representative at Star of Kingdom LTD during the period of February 2020 - December 2021. As his direct supervisor, I had the distinct pleasure of working with Mansour and closely supervise him on a variety of areas during the time he worked at our company. I can confidently state that he is a highly motivated and responsible person with an enormous degree of integrity.

The safety representative position is composed of important and diverse workloads, encompassing various communicative, research, critical thinking and managerial work. During this period Mansour has demonstrated that he is capable to completely handle multiple projects at the same time and respond swiftly to any additional work that he had been assigned to. His role requires strong multitasking and communication skills, and he has shown that not only he has these skills but also has a great cultural awareness that helped him to quickly adapt to various environments. He has also demonstrated that he likes taking initiatives to identify the problems and provide diverse solutions to them.

During this period Mansour proved to be extremely hard working and enthusiastic person. His passion for work and willingness to learn new things has made him a perfect fit for our company dynamics. Furthermore, his multi-cultural open-mindedness and friendliness will certainly ensure you that he will continue to be successful in his future academic career and a tremendous asset to your prestigious institution.

I wish him all the best in his future endeavors and remain at your disposal for any questions or further information.

Respectfully,

Sadiq Ali Sharfuddin

Operations Manager
