

To Whom It May Concern:

It is with great pleasure that I recommend Meshal Alotaibi as a wonderful and a promising student. Meshal will contribute much to your college. I have known him for a couple of years in my capacity as a teacher, Counsellor and Vice-Principal. Meshal is a likeable, well-mannered, and well natured young man who has made good progress in his classes during his studies. He always tries to get involved in classroom discussions and is able to put his point of view across in a clear and concise manner. He can analyse points in a methodical way and is able to analyse and decide on the necessary decision to be taken.

He has developed his presentation skills and ability to convince others of his point of view even though at times he was initially reluctant to get involved. He has produced classwork and homework of a good standard, and this has seen him develop in a positive way. Also, Meshal has excellent personal traits, which are evident in the way he is talking to his peers. Meshal has a charming and likeable personality and is popular with his classmates and teachers alike. These personality traits have helped him perform excellently in group activities in class, the laboratory and the playing field alike.

Meshal is an excellent specimen of a "growth mindset" and has displayed this in his behaviour over the years. He likes to learn and evolve in every dimension of his personality. His curious mind will help him absorb all the concepts in his future major and be able to put them to use in serving his role.

I hope that your institution will allow him to further develop the academic and skills that he has developed. He is a young man who has developed in manner that I am very pleased with and hope that a university education will allow him to achieve the potential that I believe he has and fulfil the potential that he possesses.

Sincerely,

Hamzah Atef

High School Academic Vice-Principal & Counsellor
