

Dear Selection Committee

It is a true pleasure for me to write in support of my student Bader. As a Chemistry teacher at “Najd National School”, I have taught Bader in Grade 11 and currently in Grade 12. He is without question, an excellent student and among the most outstanding student I have taught.

Bader’s enthusiasm in Chemistry was highly shown in his eager to participate in class discussions. He is always conscientious to read and learn topics in Chemistry beyond what is going to be in the exam which allows him to integrate new topics that create larger scopes for class discussions. His hard work and intelligence reflect his ability to connect his knowledge in different topics to that discussed in class.

Beyond being smart and self-confident, he is well-liked by his peers and teachers for his great sense of humor. And, on a personal level, I find him a student with high moral and ethical standards who is easy to communicate with.

In short, Bader is so mature and can perform well in a wide range of environments. So, if your college is seeking superior candidates with strong personality and high academic skills, Bader is an excellent choice. Therefore, I give him my wholehearted recommendation and very much hope that you will consider his application strongly.
