To Whom It May Concern

RE: Mr. Tariq Alshehri

It is an immense pleasure to write a recommendation letter for Mr. Tariq Alshihri who was my student in Rad 499 course last year. He has proved to be an excellent, and intelligent, student all-round and has an exemplary work ethic. He has the terrific ability to draw on his own experience and observations to develop thoughtful opinions on a variety of issues.

I give Mr. Alshihri my highest recommendation towards postgraduate studies and I will watch her career develop with a great interest and high expectations.

Yours faithfully

Dr. Jamaan Alghamdi
