

Recommendation letter

TO WHOM IT MAY CONCERN

It is an honor and a privilege for me to strongly support the application of

Mrs.ASMA ABDULMOHSEN OMAR ALOMAR

for being a medical student in your university

I have known her for the last four years as an OR technician and as a young enthusiastic woman who is very much interested in achieving high technical skills in vascular surgery operations .

She is serving in 7 operation rooms covering all surgical specialties for a 300 bed hospital which is the biggest hospital in hail region which is the only trauma center in hail region .

Having worked with her in the operation room , she distinguished herself by her excellent technical skills superlative collaborative and communicative skills and excellent judgment .

She has also a substantive contribution as an educator of her peers and senior nurses who desired to learn the skills in surgery .her work did not finish in the operating room ,she follows the patient up during early patient recovery .

She has nice cooperative personality with her colleagues.

Please do not hesitate to contact me if you have any question regarding this reference for Mrs.Asma

Dr. Ehab Abdo

Vascular surgery consultant

Head of vascular surgery department

Medical director of K.Kh.H
