

To Whom It May Concern:

It is with great pleasure that I recommend Abdalla Metwally as a wonderful and a promising student. Abdalla will contribute much to your college. I have known him for two years in my capacity as a Counsellor and Vice-Principal. Abdalla is full of drive, and he has a winning attitude unmatched by peers. Not only is he an excellent and hard-working student, but he has dedicated himself to enriching the lives of students and faculty around him. Abdalla is truly special for his commitment and resilience in achieving his goals.

In my capacity as a counsellor, Abdalla has mentioned that he wants to pursue the field of Mechatronics & Robotics Engineering. He was really into the major; that was evident in him studying the subjects that match or relate to this major. Over the course of two years, Abdalla has demonstrated an outstanding aptitude for these courses, exhibiting exceptional analytical and problem-solving skills while showing keen attention to detail in their assignments and presentations.

Moreover, Abdalla has shown an exceptional ability to work collaboratively in group projects. Their ability to articulate ideas and collaborate with others shows that Abdalla is a team player and would make a valuable contribution to any engineering team they become a part of.

Furthermore, Abdalla is equally impressive outside his academic pursuits. He has shown an inherent curiosity about the latest technological advancements not only in robotics engineering, but also in the broader field of robotics.

Abdalla has my recommendation. He is a kind, compassionate, intelligent, and strong person who has a clear sense of direction and purpose. I am confident that he will bring the same, insight and hard work to his university classes, social community, and his country.

Please do not hesitate to contact me for any further information.

Sincerely,

Hamzah Atef

High School Academic Vice-Principal & Counsellor
