Recommendation Letter

November 7, 2023

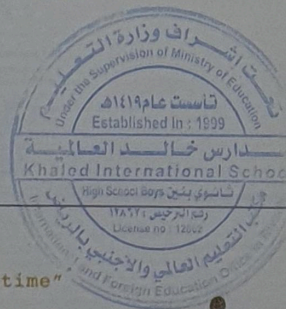

To Whom It May Concern,

I have known Saud Ibrahim and was delighted to serve as his Physics teacher since 2022 at Khaled International Schools. During that time, I watched him grow into an outstanding individual who excels in both his academic and personal pursuits.

As his physics teacher, I witnessed his extraordinary mentality and behavior. His work in physics projects is particularly impressive and his academic accomplishments are rivaled only by his personal strengths. Saud's performance and ability to solve and face his problems in both academic and personal issues are beyond his years. In addition to this, he is well-loved by his peers as well as all those who have had the pleasure of teaching him.

I highly recommended you accept Saud. I am confident he will make an excellent addition to your university's community. Please feel free to contact me if you have any questions regarding his character or past academic work.

Sincerely,
Hasan R Saleh
Physics Teacher

Recommendation Letter

November 7, 2023

To Whom It May Concern,

It is a pleasure to write a recommendation letter for **Saud Ibrahim** one of the best students I have had him in my math class for the academic years of (22-23) and (23-24)

Saud has proven himself to be not only a hard-working student, but also a mind capable of insightful interpretation having a keen interest and talent for math, and possessing a distinctive scientific inquiry. His advanced skills and passion for the subject make him an ideal fit and addition to any university.

His contribution to class discussion has improved upon the academic performance not only of himself, but also of his classmates. I think of him as someone who can take lead in any situation and deal with its complexities with admirable perceptiveness.

Saud is perceptive, sharp, and quick with a high aptitude for math. He is driven to understand how things work and perform all tasks assigned.

Saud has my highest recommendation for admission to your university. He has demonstrated excellence in all that he puts in his mind. His endless curiosity, combined with his willingness to take risks, leads me to believe there will be no limit to his growth and achievements.

Sincerely,

Teacher's name: Mr. Imad Aboul-Hosn
