## To whom it may concern.

This letter is intended to serve as a college recommendation for **Fares Ashraf Mohamed Ibrahim Barghash**, who was my student in Mathematics. I have been acquainted with **Fares** for years but came to know him well last year, as he was in the one class that I taught.

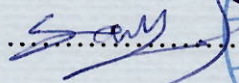

**Fares** not only has the technical qualifications and mental turpitude for admission to your prestigious program, but also has demonstrated the leadership, business acumen, management ability, technical expertise, and oral and written skills necessary to succeed in all that he endeavors.

In over twenty-three years of teaching, I have known other students with talent equivalent to **Fares**. Many of them lacked his good nature and modesty, and few demonstrated the genuine intellectual curiosity that **Fares** has exhibited over and over -- a curiosity that is often accompanied by his excitement or enthusiasm for an idea, a lead role in a challenging performance. Moreover, his work on the problem sets and exams demonstrated careful attention to detail.

**Fares** is a motivated young man of numerous talents and considerable self discipline. He is fun-loving, likable, enthusiastic, trusting and trustworthy. I believe that **Fares's** strong academic abilities and his clear dedication to learning make him a very strong candidate for your university.

If there are any questions I can answer, please feel free to contact me.

Mohamed sayed

Math teacher
